

Gidget Roberts

Full time online college student

Profile

Hello, my name is Gidget Roberts. I am working on multiple degrees full time at both East Carolina Uniersity and Wake Tech Community College. While I haven't gotten any work experience just yet, I hope my efforts here and beyond will help me find the job I am looking for most. I hope to eventually find a job in the marketing and advertising market. To do this, I am working on a college of business degree at ECU, as well as getting a web and graphic design certification at Wake Tech. When I'm not working on these programs, I am usually writing story concepts or drawing character designs as a hobby.

Featured Projects

Various graphic design and web projects

A view of a home office, with bookshelves in the back

Have practiced the art of graphic design and wbe design on various college projects, using software such as Adobe InDesign, Photoshop, Illustrator, as well as Visual Code Studio.

Sprout and Grow final project website

the homepage of a fake Sprout and Grow company

One such project was a final assignment based on creating a website, featuring numerous pages and accessibility features, for a local gardening business.
